Contents–Volume 77
January through December 2006

JANUARY 2006

EDITORIAL

1 **The Year in Review and New Initiatives**
S. A. Nunneley

RESEARCH ARTICLES

2 **Stroboscopic Vision as a Treatment for Motion Sickness: Strobe Lighting vs. Shutter Glasses**
M. F. Reschke, J. T. Somers, and G. Ford

8 **Decompression Sickness in a Swine Model: Isobaric Denitrogenation and Perfluorocarbon at Depth**
R. T. Mahon, H. M. Dainer, and J. W. Nelson

13 **Decompression Schedule Optimization with an Iso-Probabilistic Risk of Decompression Sickness**
B. J. Horn, G. C. Wake, and T. G. Anthony

20 **Trampoline Exercise vs. Strength Training to Reduce Neck Strain in Fighter Pilots**
R. Sovelius, J. Oksa, H. Rintala, H. Huhtala, J. Ylinen, and S. Siitonen

26 **Speech Intelligibility in Noise Using Throat and Acoustic Microphones**
B. E. Acker-Mills, A. J. M. Houtsma, and W. A. Ahroon

32 **Seat Vibration in Military Propeller Aircraft: Characterization, Exposure Assessment, and Mitigation**
S. D. Smith

41 **Crew Familiarity: Operational Experience, Non-Technical Performance, and Error Management**
M. J. W. Thomas and R. M. Petrilli

TECHNICAL NOTE

46 **Aviation Signal Light Gun: Variations in Photometric and Colorimetric Properties Among Airports**
J. K. Hovis, E. Casson, and W. Delpero

RESEARCH ARTICLE

53 **Hearing Thresholds for U.S. Marines: Comparison of Aviation, Combat Arms, and Other Personnel**
R. Barney and B. K. Bohnker

SHORT COMMUNICATIONS

57 **Hearing in Military Pilots: One-Time Audiometry in Pilots of Fighters, Transports, and Helicopters**
M. Raynal, M. Kossowski, and A. Job

62 **Ejection Decisions by Strike Pilots: An Extreme Value Interpretation**
R. J. Irwin and K. S. N. Callaghan

CASE REPORTS

65 **Vocal Cord Paralysis in a Fighter Pilot**
S. Maturo and J. Brennan

69 **Essential Thrombocytosis and Myocardial Infarction in an Aircrew Member: Aeromedical Concerns**
E. Perrier, O. Manen, and G. Cinquetti

HISTORICAL NOTE

73 **Aeromedical Evacuation in the "Luftwaffe" from Its Origins until 1945**
V. Harsch

FEATURES

77 **You're the Flight Surgeon**

81 **Book Reviews**

82 **Erratum**

FEBRUARY 2006

RESEARCH ARTICLE

93 Positive Psychological Outcomes of Spaceflight: An Empirical Study
E. C. Ihle, J. B. Ritsher, and N. Kanas

102 Dehydration Effects on the Risk of Severe Decompression Sickness in a Swine Model
A. Fahlman and D. M. Dromsky

107 Cerebral Blood Flow Velocity and Psychomotor Performance During Acute Hypoxia
S. L. Blogg and M. Gennser

114 Cardio-Respiratory Responses Evoked by Transient Linear Acceleration
K. Jáuregui-Renaud, R. Reynolds, A. M. Bronstein, and M. A. Gresty

121 Gastric Emptying Effects of Dietary Fiber During 8 Hours at Two Simulated Cabin Altitudes
H. Hinninghofen, F. Musial, A. Kowalski, and P. Enck

124 Thermoregulatory Responses to Exercise in the Heat: Chronic Caffeine Intake Has No Effect
M. W. Roti, D. J. Casa, A. C. Pumerantz, G. Watson, D. A. Judelson, J. C. Dias, K. Ruffin, and L. E. Armstrong

REVIEW ARTICLE

130 Medical Mitigation Strategies for Acute Radiation Exposure During Spaceflight
S. Epelman and D. R. Hamilton

CASE REPORT

140 Cutaneous Psoriasis in a Military Flight Surgeon
A. D. Hagen, D. J. Sulit, and A. K. Sulit

SHORT COMMUNICATIONS

145 Layover Sleep Prediction for Cockpit Crews During Transmeridian Flight Patterns
K. J. Kandelaars, A. Fletcher, G. E. Eitzen, G. D. Roach, and D. Dawson

151 Bispectral Analysis as a Tool to Investigate Dynamics of Cardiorespiratory Physiology
X. Wang, S. Krishnamurthy, J. Evans, D. Bhakta, L. Justice, E. Bruce, and A. Patwardhan

HISTORICAL NOTE

157 Centrifuge "Therapy" for Psychiatric Patients in Germany in the Early 1800s
V. Harsch

FEATURES

161 You're the Flight Surgeon

164 Book Review

MARCH 2006

77TH Annual Scientific Meeting Program and Abstract Issue

175 President's Page
175 Past Presidents of AsMA
176 Council of AsMA
177 Educational Objectives/Credit Hours
178 MOC Schedule
179 Workshops and Historic Films
180 FAA Schedule
181 Program Schedule
215 Meeting Abstracts
354 Index to Abstract Authors
359 Exhibits
362 Louis H. Bauer Lecturer: Polly Vacher
362 Harry G. Armstrong Lecturer: Tony Batchelor
363 Annual Meeting Chairs & Committees

364 Minutes of the 2005 Business Meeting
365 Bylaws of the Aerospace Medical Asosciation
372 Home Office Staff Photos
372 Wing Board of Directors
373 Maps of Meeting Spaces

APRIL 2006

REVIEW ARTICLE
377 Cardiac Health for Astronauts: Coronary Calcification Scores and CRP as Criteria for Selection and Retention
D. R. Hamilton, J. D. Murray, and C. G. Ball

RESEARCH ARTICLES
388 Head and Helmet Biodynamics and Tracking Performance in Vibration Environments
S. D. Smith and J. A. Smith

398 Cranial-Neck and Inhalation Rewarming Failed to Improve Recovery from Mild Hypothermia
H. E. Wright and S. S. Cheung

404 Three-Dimensional Spatial Skill Training in a Simulated Space Station: Random vs. Blocked Designs
W. L. Shebilske, T. Tubré, A. H. Tubré, C. M. Oman, and J. T. Richards

410 Hormonal Responses of Pilots to Training Flights: The Effects of Experience on Apparent Stress
Y. Otsuka, A. Onozawa, and Y. Miyamoto

415 Risk Factors for Recruit Exertional Heat Illness by Gender and Training Period
R. F. Wallace, D. Kriebel, L. Punnett, D. H. Wegman, C. B. Wenger, J. W. Gardner, and J. A. Kark

422 Air Traffic Controller Burnout: Survey Responses Regarding Job Demands, Job Resources, and Health
M. Martinussen and A. M. Richardsen

429 Hemodynamic Effects of Midodrine After Spaceflight in Astronauts Without Orthostatic Hypotension
S. H. Platts, M. G. Ziegler, W. W. Waters, and J. V. Meck

434 Decision Analysis in Aerospace Medicine: Costs and Benefits of a Hyperbaric Facility in Space
A. John-Baptiste, T. Cook, S. Straus, G. Naglie, G. Gray, G. Tomlinson, and M. Krahn

SHORT COMMUNICATIONS
444 Recovery from Unusual Attitudes: HUD vs. Back-up Display in a Static F/A-18 Simulator
S. W. Huber

449 Phosphenes in Low Earth Orbit: Survey Responses from 59 Astronauts
C. Fuglesang, L. Narici, P. Picozza, and W. G. Sannita

453 A Device for Sampling Arterialized Earlobe Blood in Austere Environments
T. Russomano, S. N. Evetts, J. Castro, Marlise A. dos Santos, J. Gavillon, D. F. G. Azevedo, J. Whittle, E. Coats, and J. Ernsting

COMMENTARY
456 Aircrew and Type 1 Diabetes Mellitus
S. R. Heller and A. N. Nicholson

CASE REPORT
459 Apical Hypertrophic Cardiomyopathy and Arrhythmia in Military Pilots
D. Carter, R. Pokroy, E. Barenboim, B. Azaria, and L. Goldstein

FEATURES
462 You're the Flight Surgeon
464 Letters to the Editor

MAY 2006

475 **Medical Qualification of a Commercial Spaceflight Participant: Not Your Average Astronaut**
R. T. Jennings, D. M. F. Murphy, D. L. Ware, S. M. Aunon, R. E. Moon, V. V. Bogomolov, V. V. Morgun, Y. I. Voronkov, C. E. Fife, M. C. Boyars, and R. D. Ernst

EDITORIAL

485 **Comments on Medical Qualification of Space Tourists**
M. R. Barratt

RESEARCH ARTICLES

486 **Inspiratory Impedance Effects on Hemodynamic Responses to Orthostasis in Normal Subjects**
V. A. Convertino, D. A. Ratliff, K. C. Eisenhower, C. Warren, D. F. Doerr, A. H. Idris, and K. G. Lurie

494 **Acute Cardiovascular Adaptation to 10 Consecutive Episodes of Head-Up Tilt**
N. M. Berry, C. A. Rickards, and D. G. Newman

500 **Semicircular Canal Influence on the Visually Perceived Eye Level During Gondola Centrifugation**
A. Tribukait and O. Eiken

509 **Predicting Neck Injuries Due to Head-Supported Mass**
S. J. Manoogian, E. A. Kennedy, K. A. Wilson, S. M. Duma, and N. M. Alem

515 **Prior Sleep with Zolpidem Enhances the Effect of Caffeine or Modafinil During 18 Hours Continuous Work**
D. Batéjat, O. Coste, P. Van Beers, D. Lagarde, C. Piérard, and M. Beaumont

526 **CNS Toxicity in Closed-Circuit Oxygen Diving: Symptoms Reported from 2527 Dives**
R. Arieli, T. Shochat, and Y. Adir

533 **Reproductive Disorders and Pregnancy Outcomes Among Female Flight Attendants**
L. Lauria, T. J. Ballard, M. Caldora, C. Mazzanti, and A. Verdecchia

SHORT COMMUNICATIONS

540 **Oxygen Delivery Comparison of Two Constant-Flow Masks During Flight to 6863 m**
J. Hinkelbein, E. Glaser, J. Doerrstein, and H. V. Genzwuerker

545 **Heat Stress Reduction of Helicopter Crew Wearing a Ventilated Vest**
P. A. Reffeltrath

551 **Plasma Glutathione Peroxidase Activity as a Potential Indicator of Hypoxic Stress in Breath-Hold Diving**
A-S. Rousseau, C. Richer, M-J. Richard, A. Favier, and I. Margaritis

556 **Balloon Crash Damage and Injuries: An Analysis of 86 Accidents, 2000-2004**
A. J. de Voogt and R. R. A. van Doorn

FEATURES

559 **You're the Flight Surgeon**

561 **Special Report: At Your Service—Results of the Readership Survey**

JUNE 2006

REVIEW ARTICLE

573 **Physical Conditioning to Enhance +G_z Tolerance: Issues and Current Understanding**
W. A. Bateman, I. Jacobs, and F. Buick

RESEARCH ARTICLES

581 **Muscle Training by Means of Combined Electrical Stimulation and Volitional Contraction**
H. Matsuse, N. Shiba, Y. Umezu, T. Nago, Y. Tagawa, T. Kakuma, K. Nagata, and J. R. Basford

586 **Practice Ameliorates Deficits of Isometric Force Production in +3 G_z**
S. Göbel, O. Bock, H. Pongratz, and W. Krause

592 **Venous Bubble Count Declines During Strenuous Exercise After an Open Sea Dive to 30 m**
Ž. Dujić, A. Obad, I. Palada, V. Ivančev, and Z. Valic

597 **Glutathione in Blood Cells Decreases Without DNA Breaks After a Simulated Saturation Dive to 250 msw**
R. Djurhuus, K. Segadal, and A. M. Svardal

605 **Fatigue in Trans-Atlantic Airline Operations: Diaries and Actigraphy for Two- vs. Three-Pilot Crews**
C. A. Eriksen, T. Åkerstedt, and J. P. Nilsson

613 **LBBB in Aircrew with Low Cardiac Risk: Diagnostic Application of Multislice CT**
E. Perrier, O. Manen, P. Doireau, J. F. Paul, S. Ghostine, M. Lerecouvreux, J. Deroche, P. A. Leduc, M. Genero, J. F. Paris, V. Martel, R. Carlioz, S. Geffroy, C. Caussin, C. Plotton, and J. P. Gourbat

619 **G-Induced Loss of Consciousness: Retrospective Survey Results from 2259 Military Aircrew**
N. D. C. Green and S. A. Ford

624 **Color Vision Assessment: Fail Rates of Two Versions of the Farnsworth Lantern Test**
B. L. Cole, K-Y. Lian, and C. Lakkis

REVIEW ARTICLE

631 **Physician Roles in Aeromedical Evacuation: Current Practices in USAF Operations**
W. W. Hurd, R. J. Montminy, R. A. De Lorenzo, L. T. Burd, B. S. Goldman, and T. J. Loftus

SHORT COMMUNICATIONS

639 **Procedural Errors in Air Traffic Control: Effects of Traffic Density, Expertise, and Automation**
F. Di Nocera, R. Fabrizi, M. Terenzi, F. Ferlazzo

644 **Efficiency of Liquid Cooling Garments: Prediction and Manikin Measurement**
X. Xu, T. Endrusick, B. Laprise, W. Santee, and M. Kolka

649 **Renal Lithiasis: Addressing the Risks of Austere Desert Deployments**
J. S. Cramer and K. Forrest

CASE REPORT

654 **Dental Fractures on Acute Exposure to High Altitude**
Y. Zadik, S. Einy, R. Pokroy, Y. B. Dayan, and L. Goldstein

FEATURES

658 **Cases from CAMI: Pre-Diabetes**—*D. Files*

660 **You're the Flight Surgeon**—*K. M. Jones*

662 **Editorial: New Journal Feature: CME/MOC**—*R. B. Rayman*

663 **CME Questions**

JULY 2006

RESEARCH ARTICLES

677 **Using Daily 30-min Phase Advances to Achieve a 6-Hour Advance: Circadian Rhythm, Sleep, and Alertness**
T. H. Monk, D. J. Buysse, and B. D. Billy

687 **Maximal Oxygen Uptake After Attenuation of Cardiovascular Drift During Heat Stress**
J. E. Wingo and K. J. Cureton

695 **Roll-Tilt Perception During Gondola Centrifugation: Influence of Steady-State Acceleration (G) Level**
A. Tribukait and O. Eiken

704 **Intraocular Pressure at a Simulated Altitude of 9000 m With and Without 100% Oxygen**
D. Ersanli, S. Yildiz, M. Sonmez, A. Akin, A. Sen, and G. Uzun

707 **Blood Lactate Responses to Leg Presses Performed Against Inertial Resistance**
J. F. Caruso, J. C. Herron, L. B. Capps, M. A. Coday, C. A. Ramsey, and J. L. Drummond

713 **Neck Pain and Related Disability in Helicopter Pilots: A Survey of Prevalence and Risk Factors**
B. Äng and K. Harms-Ringdahl

720 **Aircraft and Related Factors in Crashes Involving Spatial Disorientation: 15 Years of U.S. Air Force Data**
T. J. Lyons, W. Ercoline, K. O'Toole, and K. Grayson

724 **Human Factors in Remotely Piloted Aircraft Operations: HFACS Analysis of 221 Mishaps Over 10 Years**
A. P. Tvaryanas, W. T. Thompson, and S. H. Constable

REVIEW ARTICLE
733 **Aircraft Disinsection**
R. B. Rayman

SHORT COMMUNICATIONS
737 **Pilot Error in Air Carrier Accidents: Does Age Matter?**
G. Li, J. G. Grabowski, S. P. Baker, and G. W. Rebok

742 **Acute Mountain Sickness and Ascent Rates in Trekkers Above 2500 m in the Nepali Himalaya**
J. Vardy, J. Vardy, and K. Judge

745 **Plasma Protein Synthesis After Spaceflight**
T. P. Stein and M. D. Schluter

CASE REPORTS
749 **ECG and Thallium Imaging Abnormalities with Normal Coronary Angiogram in a Male Flight Surgeon**
M. G. Fitzsimons and C. Parrado

753 **Excessive Daytime Sleepiness in a Trainee Military Pilot**
T. L. Smart and B. Singh

758 **Bacterial Meningitis Exposure During an International Flight: Lessons for Communicable Pathogens**
L. K. Riley

FEATURES
761 **Cases from CAMI: Polycythemia in the Aviator**—*J. R. Elliott*
763 **You're the Flight Surgeon**—*G. D. Fancher*
765 **Book Reviews**
766 **Letters to the Editor**
767 **CME/MOC Questions**

AUGUST 2006

RESEARCH ARTICLE
789 **Cancer Incidence in the U.S. Air Force: 1989-2002**
G. K. Yamane

795 **Nitrogen Load in Rats Exposed to 8 ATA from 10-35°C Does Not Influence Decompression Sickness Risk**
A. Fahlman and S. R. Kayar

801 **Ventilatory Effects of Prolonged Hyperoxia at Pressures of 1.5–3.0 ATA**
R. Gelfand, C. J. Lambertsen, and J. M. Clark

811 **Rotation Velocity Change and Motion Sickness in an Optokinetic Drum**
A. Bubka, F. Bonato, S. Urmey, and D. Mycewicz

816 **A Latent Class Model to Assess Error Rates in Diagnosis of Altitude Decompression Sickness**
J. Conkin, H-G. Sung, and A. H. Feiveson

825 **Age and Automation Interact to Influence Performance of a Simulated Luggage Screening Task**
D. Wiegmann, J. S. McCarley, A. F. Kramer, and C. D. Wickens

832 **Perception of Cockpit Environment Among Pilots on Commercial Aircraft**
T. Lindgren, K. Andersson, and D. Norbäck

838 **Asthma in Military Aviators: Safe Flying Is Possible**
D. Carter, R. Pokroy, B. Azaria, E. Barenboim, Y. Swhartz, and L. Goldstein

SHORT COMMUNICATION

842 **Dose-Dependent Effects of Hypergravity on Body Mass in Mature Rats**
S. Kita, S. Shibata, H. Kim, A. Otsubo, M. Ito, and K. Iwasaki

846 **Vascular Distribution of an Ultrasound Contrast Agent Used to Simulate Decompression Bubbles**
S. Besnard, A. Capri, M. Philippot, P. Hervé, M-A. Porcher, and P. Arbeille

852 **Microgravity Effects on Fine Motor Skills: Tying Surgical Knots During Parabolic Flight**
A. Rafiq, R. Hummel, V. Lavrentyev, W. Derry, D. Williams, and R. C. Merrell

857 **Mask-On Hypoxia Training for Tactical Jet Aviators: Evaluation of an Alternate Instructional Paradigm**
A. R. Artino, Jr., R. V. Folga, and B. D. Swan

CASE REPORT

864 **Barodontalgia Due to Odontogenic Inflammation in the Jawbone**
Y. Zadik

HISTORICAL NOTE

867 **Robert Hooke, Inventor of the Vacuum Pump and the First Altitude Chamber (1671)**
V. Harsch

FEATURES

870 **Cases from CAMI: Traumatic Subdural Hematoma and Medical Certification**
M. J. Kupke

873 **You're the Flight Surgeon**—*E. L. O'Neal*

876 **Book Reviews**

877 **CME/MOC Questions**

SEPTEMBER 2006

RESEARCH ARTICLES

899 **Sound Attenuation from Earmuffs and Earplugs in Combination: Maximum Benefits vs. Missed Information**
S. M. Abel and P. Odell

905 **Post-Dive Bubble Formation in Rats: Effects of Exercise 24 h Ahead and Repeated 30 min Before the Dive**
Are Løset Jr., Andreas Møllerløkken, V. Berge, U. Wisløff, and Alf O. Brubakk

909 **Motion Sickness Provoked by Torso Rotation Predicts That Caused by Head Nodding**
Annie Cloutier and Douglas G. D. Watt

915 **Heart Rate Variability During High Ambient Heat Exposure**
Stewart S. Bruce-Low, David Cotterrell, and Gareth E. Jones

921 **Carotid Sinus Pressure Changes During Push-Pull Maneuvers**
L. S. Goodman, L. Grosman-Rimon, and R. Mikuliszyn

929 **Cognition During Sustained Operations: Comparison of a Laboratory Simulation to Field Studies**
H. R. Lieberman, P. Niro, W. J. Tharion, B. C. Nindl, J. W. Castellani, and S. J. Montain

936 **Survivability and Injuries from Use of Rocket-Assisted Ejection Seats: Analysis of 232 Cases**
Matthew E. Lewis

944 **Artefactual Contraction Band Necrosis of the Myocardium in Fatal Air Crashes**
J. Duflou, G. Nickols, P. Waite, R. Griffiths, and M. Sage

950 **Ultralight Aviation Accident Factors and Latent Failures: A 66-Case Study**
B. J. Pagan, A. J. de Voogt, and R. R. A. van Doorn

SHORT COMMUNICATIONS

953 **Accelerometry as a Measure of Subject Compliance in Unilateral Lower Limb Suspension**
S. B. Cook, B. C. Clark, and L. L. Ploutz-Snyder

957 **Automatic Detection of Bubbles in the Subclavian Vein Using Doppler Ultrasound Signals**
K. Tufan, A. Ademoglu, E. Kurtaran, G. Yildiz, S. Aydin, and S. M. Egi

CASE REPORTS
963 Fatigue and Related Human Factors in the Near Crash of a Large Military Aircraft
J. J. Armentrout, D. A. Holland, K. J. O'Toole, and W. R. Ercoline

971 Neurological Disorders After Repetitive Breath-Hold Diving
E. Gempp and J-E. Blatteau

SPECIAL REPORT
974 Pandemic Influenza: A Note on International Planning to Reduce the Risk from Air Transport
A. Evans, S. Finkelstein, J. Singh, and C. Thibeault

SPECIAL COMMITTEE REPORT
977 The Annual Awards of the Aerospace Medical Association
S. R. Mohler and P. C. Day

FEATURES
981 Space Medicine Reviews: Muscle—*M. E. Walton*
984 Cases from CAMI: Prostate Cancer—*S. McCleod*
987 You're the Flight Surgeon—*W. Anderson*
989 Letters to the Editor
991 CME/MOC Questions

OCTOBER 2006

REVIEW ARTICLE
1003 Delayed Treatment of Decompression Sickness with Short, No-Air-Break Tables: Review of 140 Cases
P. Cianci and J. B. Slade, Jr.

RESEARCH ARTICLES
1009 Venous Filling and Elastance in the Calf Positioned Above and Below Heart Level
S. Cirovic, C. Walsh, W. D. Fraser, and A. Gulino

1015 Cardiovascular Regulation Response to Hypoxia During Stepwise Decreases from 21% to 15% Inhaled Oxygen
K. Iwasaki, Y. Ogawa, K. Aoki, T. Saitoh, A. Otsubo, and S. Shibata

1020 The Sweating Foot: Local Differences in Sweat Secretion During Exercise-Induced Hyperthermia
N. A. S. Taylor, J. N. Caldwell, and I. B. Mekjavic

1028 CO_2 Detection in Closed-Circuit Oxygen Divers With and Without a Distracting Task
M. Eynan, D. Tal, E. Arie, F. Ne'eman, and Y. Adir

1034 Caffeinated Tube Food Effect on Pilot Performance During a 9-Hour, Simulated Nighttime U-2 Mission
B. K. Doan, P. A. Hickey, H. R. Lieberman, and J. R. Fischer

1041 Head Rotation During Vertical Impact Predicted Using Initial Head Angle and Anthropometry
E. M. Yliniemi, M. Ziejewski, and C. E. Perry

1049 Neck Muscle Activation and Head Postures in Common High Performance Aerial Combat Maneuvers
K. J. Netto and A. F. Burnett

1056 Pilot Error and Its Relationship with Higher Organizational Levels: HFACS Analysis of 523 Accidents
W-C. Li and D. Harris

1062 General Aviation Accidents In Degraded Visibility: A Case Control Study of 72 Accidents
L. S. Groff and J. M. Price

REVIEW ARTICLES
1068 Gas Nuclei, Their Origin, and Their Role in Bubble Formation
J-E. Blatteau, J-B. Souraud, E. Gempp, and A. Boussuges

1077 In-Flight Medical Incapacitation and Impairment of Airline Pilots
C. A. DeJohn, A. M. Wolbrink, and J. G. Larcher

CASE REPORT
1080 PET Scan as an Aid for the Return of a Head-Injured Aviator to Flying Duty
A. Grossman, B. Azaria, D. Carter, D. Landau, and L. Goldstein

COMMENTARIES
1083 PET Scans and Traumatic Brain Injuries: A Brief Comment
F. Weber

1084 Lunar Exploration and the Advancement of Biomedical Research: A Physiologist's View
C. A. Piantadosi

HISTORICAL NOTE
1087 Albrecht Ludwig Berblinger – Inventor of the Spring Prosthesis and Hang-Glider (1811)
V. Harsch and J. Kriebel

SPECIAL REPORT
1091 Membership Survey Results
G. M. Carter and J. T. Webb

FEATURES
1092 Cases from CAMI: Posner-Schlossman Syndrome and Medical Certification—*S. L. Branch*
1094 You're the Flight Surgeon—*F. A. Marks*
1096 Abstracts Not Presented
1097 CME/MOC Questions

NOVEMBER 2006

RESEARCH ARTICLES
1107 Heart Period Variability in Trauma Patients May Predict Mortality and Allow Remote Triage
W. H. Cooke, J. Salinas, J. G. McManus, K. L. Ryan, C. A. Rickards, J. B. Holcomb, and V. A. Convertino

1113 Melanoma Growth and Tumorigenicity in Models of Microgravity
M. Taga, K. Yamauchi, J. Odle, L. Furian, A. Sundaresan, G. T. Ramesh, N. R. Pellis, R. J. Andrassy, and A. D. Kulkarni

1117 Gravity Replacement During Running in Simulated Microgravity
K. O. Genc, V. E. Mandes, and P. R. Cavanagh

1125 Squat-Stand Test Response Following 10 Consecutive Episodes of Head-Up Tilt
N. M. Berry, C. A. Rickards, and D. G. Newman

1131 Cervical Resistance Training: Effects on Isometric and Dynamic Strength
M. K. Taylor, J. A. Hodgdon, L. Griswold, A. Miller, D. E. Roberts, and R. F. Escamilla

1136 Breath-Hold Performance During Cold Water Immersion: Effects of Psychological Skills Training
M. J. Barwood, J. Dalzell, A. K. Datta, R. C. Thelwell, and M. J. Tipton

1143 Normobaric Hypoxia Inhalation Test vs. Response to Airline Flight in Healthy Passengers
P. T. Kelly, M. P. Swanney, C. Frampton, L. M. Seccombe, M. J. Peters, and L. E. Beckert

1148 Genetic Influences on Motion Sickness Susceptibility in Adult Women: A Classical Twin Study
C. M. Reavley, J. F. Golding, L. F. Cherkas, T. D. Spector, and A. J. MacGregor

1153 CNS Oxygen Toxicity in Closed-Circuit Diving: Signs and Symptoms Before Loss of Consciousness
R. Arieli, Y. Arieli, Y. Daskalovic, M. Eynan, and A. Abramovich

1158 Cervical and Lumbar MRI Findings in Aviators as a Function of Aircraft Type
D-A. Landau, L. Chapnick, N. Yoffe, B. Azaria, L. Goldstein, and E. Atar

1162 Pre-Hypertension as a Predictor of Hypertension in Military Aviators: A Longitudinal Study of 367 Men
A. Grossman, C. Grossman, E. Barenboim, B. Azaria, L. Goldstein, and E. Grossman

1166 Fatigue in Military Aviation Shift Workers: Survey Results for Selected Occupational Groups
A. P. Tvaryanas and W. T. Thompson

1171 Pilot Medical History and Medications Found in Post Mortem Specimens from Aviation Accidents
D. V. Canfield, G. J. Salazar, R. J. Lewis, and J. E. Whinnery

REVIEW ARTICLE
1174 Thermoregulatory Control Following Dynamic Exercise
W. S. Journeay, R. Carter III, and G. P. Kenny

SHORT COMMUNICATION
1183 **Immersion in Thermoneutral Water: Effects on Arterial Compliance**
A. Boussuges
CASE REPORT
1188 **The Role of Aeronautical Adaptability in the Disqualification of a Military Flyer**
S. F. McClellan and S. Bernstein
FEATURES
1193 **Cases from CAMI Smallpox: Inappropriate Vaccination Site—** *J. S. Westphall*
1196 **You're the Flight Surgeon—***M. Krautheim*
1197 **Statement of Ownership, Management, and Circulation**
1198 **Book Reviews**
1199 **CME/MOC Questions**

DECEMBER 2006

REVIEW ARTICLE
1213 **Motion Sickness: Advances in Pathogenesis, Prediction, Prevention, and Treatment**
A. Shupak and C. R. Gordon
RESEARCH ARTICLES
1224 **Muscle Oxygen Supply During Cold Face Immersion in Breath-Hold Divers and Controls**
Z. Valic, I. Palada, D. Bakovic, M. Valic, S. Mardesic-Brakus, and Z. Dujic
1230 **Acclimation to Intermittent Hypobaric Hypoxia Modifies Responses to Cold at Sea Level**
J-C. Launay, Y. Besnard, A. Guinet-Lebreton, and G. Savourey
1236 **Motion Sickness During Fore-and-Aft Oscillation: Effect of the Visual Scene**
C. A. Butler and M. J. Griffin
1244 **Rotation Rate and Duration Effects on the Somatogyral Illusion**

INDEXES TO VOLUME 77, 2006

Index to Subjects

A

Abstracts
  77th AsMA Meeting–215
  not presented at the 77th AsMA meeting–1096
Acceleration
  cardio-respiratory response to–114
  carotid sinus pressure during–921, 991
  G-LOC prevalence in–619
  physical conditioning enhances G tolerance–573
  repetitive, motion sickness and–1236
  roll-tilt perception during–695
Accelerometry, for lower limb suspension compliance–953
Accidents, aviation–*see* Aviation accidents
Acclimatization, to hypoxia without cold exposure–1230
Achalasia, diagnosis and treatment of–873
Acoustic microphones, speech intelligibility in noisy environments and–26
Acute altitude sickness, incidence and altitudes in Solu-Khumbu–742, 768
Acute radiation syndrome, during spaceflight–130
Adaptation
  aeronautical adaptability and disqualification–1188
  positive psychological outcomes of spaceflight–93
Adrenaline, response to flight training–410
Adrenergic agonists, midodrine for post-flight orthostatic intolerance–429
Aeromedical certification
  aeronautical adaptability and–1188
  for childhood cancer survivors–1266
  inappropriate smallpox vaccination site and–1193
  Posner-Schlossman syndrome and–1092
  subdural hematoma and–870
Aeromedical evacuation
  Luftwaffe aeromedical evacuation–73
  of Military Working Dogs–763
  physician roles in–631, 664
Aeronautical adaptability, personality traits and–1188
Aerospace Medical Association, annual awards–977
Aerospace medicine, Aerospace Medicine Association annual awards for–977
After-drop, cranial-neck and inhalation rewarming for–398
Age
  aviation accidents and–737, 768
  baggage screening task performance and–825
  general aviation accidents and–1062, 1097
Air Force (United States), cancer incidence in–789, 877
Air quality, of commercial aircraft cockpits–832, 877
Air sickness–*see* Motion sickness
Air traffic controllers
  burnout and occupational stress in–422
  procedural errors by–639
  signal light color variation and–46
Air travel
  emphysematous bulla hemorrhage during–1275
  influenza pandemic guidelines for–974
  normobaric hypoxia inhalation test for–1143
Aircraft
  aviator neck and lumbar spine pain and aircraft type–1158
  disinfection of–733, 767
  remotely piloted–1278
  spatial disorientation-related accidents and aircraft type–720
Aircraft accidents–*see* Aviation accidents
Aircrew–*see* Aviator; Crewmembers
Airlines–*see also* Commercial aircraft
  in-flight medical incapacitation of airline pilots–1077, 1098
  pilot alcohol use violations and–1288
Airway injuries, diagnosis and treatment of–161
Alcohol use violations, reported in U.S. newspapers, 1990–2006–1288
Alertness–*see also* Vigilance
  daily 30-minute advances for 6-hour phase advance and–677
Alertness management program, for fatigue–1256
Altitude
  acclimation to hypoxia without cold exposure and–1230
  civil aviation midair collisions and–1252
  dental restoration breakage and–654, 664
  dietary fiber, gastric emptying and–121
  error rates in diagnosis of altitude DCS–816
  incidence of acute altitude sickness and–742, 768
  intraocular pressure and–704
  oxygen delivery comparison for constant-flow masks–540
  pressure-equalizing ear plugs for–766
Altitude chambers
  for hypoxia training–857
  invention of–867
Amalgam restoration breakage, in high altitude exposure–654, 664
Anisocoria, diagnosis and treatment of–987
Anthracycline toxicity, in childhood cancer survivors–1266
Anti-G straining maneuvers, vocal cord paralysis and–65
Antibiotics, for methicillin-resistant *S. aureus*–1271
Antioxidants, glutathione peroxidase indicators of hypoxia and–551
Apical periodontitis, barodontalgia from–864, 878
Arrhythmias, with acute hypertrophic cardiomyopathy–459
Arterial blood gas tensions, earlobe arterialized blood for–453
Arterial compliance, in thermoneutral water–1183
Ascent rate, incidence of acute altitude sickness and–742, 768
Asthma, in military aviators–838, 878
Astronauts–*see* Spaceflight
Athletic performance–*see* Performance
Atrial fibrillation, with acute hypertrophic cardiomyopathy–459
Attitude directional indicator, for spatial disorientation–444
Automated systems
  for air traffic control–639
  baggage screening task performance and–825
Autopsy
  contraction band necrosis indicates myocardial infarction–944
  medications found in–1171
Aviation accidents
  autopsy diagnosis of acute myocardial infarction and–944
  civil aviation midair collisions 2000–2004–1252
  general aviation–1062, 1097
  hot-air and gas balloons–556
  hot-air and gas balloons (letter & reply)–989
  human error and organizational structure in–1056
  human factors in a near crash–963
  in-flight medical incapacitation of airline pilots–1077, 1098
  pilot age and–737, 768
  pilot medical history and autopsy medication findings in–1171
  remotely piloted aircraft–724
  spatial disorientation-related–720
  ultralight aircraft–950
Aviation medicine–*see* Aerospace medicine
Aviation, Space and Environmental Medicine
  membership survey–1091
  readership survey results–561
  year in review and new initiatives (editorial)–1
Aviator–*see also* Fighter pilots; Military pilots
  alcohol use violations, 1990–2006–1288
  alertness management program for–1256
  asthma in–838, 878

autopsy findings, medical history and accidents–1171
awareness of hypoglycemic episodes in type 1 diabetes–456
caffeinated tube food for–1034
childhood cancer survivors as–1266
cutaneous community-acquired methicillin-resistant *S. aureus* in–1271
error rates in diagnosis of altitude DCS–816
fatigue/sleepiness in 2 and 3 pilot crews–605
head injury epileptogenic potential in–1080, 1098
head injury epileptogenic potential in (commentary)–1083
hearing thresholds–53
in-flight medical incapacitation of–1077, 1098
neck and lumbar spine pain in–1158
performance–*see* Performance
pilot age and aviation accidents–737, 768
polycythemia in–761
pre-hypertension predicts hypertension in–1162
reduced oxygen breathing device (ROBD) hypoxia training for–857
Aviator error–*see* Errors
Awareness, of hypoglycemic episodes in type 1 diabetes–456

B

Back pain
aircraft type and–1158
from seat vibration–32
Bacterial meningitis, exposure during a intercontinental flight–758, 769
Baggage screening tasks, age and automation effect performance of–825
Balloons
accidents and injuries from–556
accidents and injuries from (letter & reply)–989
Barodontalgia, from apical periodontitis–864, 878
Baroreceptors, carotid sinus pressure during push-pull maneuvers–921, 991
Barotrauma, pressure-equalizing ear plugs for prevention of–766
Basic military training, heat stress risk factors during–415
Bed rest, knee extensor and plantar flexor muscle function after–981
Benign episodic pupil dilatation, diagnosis and treatment of–987
Berblinger, Albrecht Ludwig–1087
Beta agonists, for aviator asthma–838, 878
Biomedical research, lunar exploration and–1084
Bispectral analysis, of cardiorespiratory physiology–151
Blood pressure
impedance threshold device for–486
in stepwise normobaric hypoxia, 15% to 21%–1015
Body mass
dose-dependent effects of hypergravity on–842
heat stress risk factors during basic training and–415
Body temperature regulation–*see* Thermoregulation
Bone loss, gravity replacement for exercise in microgravity and–1117
Book reviews–81, 164, 765, 876, 1198, 1296
Brain injuries
PET scan for epileptogenic potential of–1080, 1098
PET scan for epileptogenic potential of (commentary)–1083
Breath-hold diving
glutathione peroxidase indicators of hypoxia in–551
muscle oxygen saturation in–1224
neurological effects of–971, 992
Breath-hold times, during accidental cold water immersion–1136
Bubbles–*see* Gas bubbles
Bulla, emphysematous, hemorrhage during commercial air travel–1275
Burnout, in air traffic controllers–422

C

C-reactive protein, for coronary artery disease screening–377
Cabin environment
dietary fiber, gastric emptying and–121
pilot perception of commercial aircraft cockpits–832, 877
Cabin pressure, barodontalgia from apical periodontitis and–864, 878
Caffeine
for performance improvement during military operations–515
pilot performance and–1034
thermoregulation in hot environments and–124
Calcification scores, for coronary artery disease screening–377
Calf muscle, venous filling and elastance in orthostatic stress–1009
Cancer
childhood survivors of–1266
incidence in the U.S. Air Force–789, 877
Carbon dioxide detection, in closed-circuit dives–1028
Cardiac output, impedance threshold device for–486
Cardiovascular disease, pre-hypertension predicts hypertension–1162
Cardiovascular response
bispectral analysis of–151
to repeated head-up tilt–494
squat-stand test response after head-up tilt–1125
to stepwise normobaric hypoxia, 15% to 21%–1015
to transient linear acceleration–114
Carotid sinus pressure, during push-pull maneuvers–921, 991
Carsickness–*see* Motion sickness
Cases From CAMI
polycythemia in aviators–761
Posner-Schlossman syndrome–1092
pre-diabetes–658
prostate cancer–984
smallpox vaccination site–1193
subdural hematoma and medical certification–870
testicular cancer–1291
Cavernous sinus thrombosis, diagnosis and treatment of–660
Central nervous system toxicity, from closed-circuit diving–526, 1028, 1153
Centrifugation–*see also* Acceleration
dose-dependent effects of hypergravity on body mass in–842
roll-tilt perception during–695
Centrifuge therapy, for psychiatric patients–157
Cerebral blood flow velocity, in acute hypoxia–107
Certification–*see* Aeromedical certification
Cervical resistance exercise, for neck injury prevention–1131
Cervical spine, in aerial combat maneuvers–1049
Cervical spine injuries
aircraft type and–1158
prevelance in helicopter pilots–713
Chemical protective clothing–*see* Protective clothing
Childhood cancer survivors, aeromedical fitness of–1266
Chronic obstructive pulmonary disease, emphysematous bulla hemorrhage and–1275
Circadian rhythms
in 2 and 3 pilot crews on trans-Atlantic flights–605
daily 30-minute advances for 6-hour phase advance and–677
Civil aviation accidents, midair collisions 2000–2004–1252
Civilian spaceflight–*see* Space tourism
Closed-circuit diving
carbon dioxide detection in–1028
CNS oxygen toxicity from–526, 1028, 1153
CME & MOC Questions
acute altitude sickness and ascent rates–768
advances in motion sickness research–1297
aircraft disinsection–767
asthma in military aviators–878
bacterial meningitis exposure during an intercontinental flight–769
barodontalgia from apical periodontitis–878
cancer incidence in the U.S. Air Force–877
carotid sinus pressure during push-pull maneuvers–991
dental restoration breakage–664
excessive daytime sleepiness–769

general aviation accidents in degraded visibility–1097
in-flight medical incapacitation of airline pilots–1098
introduction to–662
multislice CT for left bundle branch block–663
PET scan for epileptogenic potential of head injuries–1098
physician roles in aeromedical evacuation–664
pilot error in air carrier accidents–768
pilot perception of commercial aircraft cockpits–877
repetitive breath-hold diving neurologic injuries–992
rocket-assisted ejection seats–992
sound attenuation from earmuffs with earplugs–991
Cockpit environment, pilot perception of commercial aircraft cockpits–832, 877
Cognitive effect–*see also* Performance
of acute hypoxia–107
of carbon dioxide in closed-circuit dives–1028
of hypoglycemic episodes in type 1 diabetes–456
of sustained operational environments–929
Cold exposure, acclimation to hypoxia without–1230
Cold water immersion, breath-hold performance during–1136
Color vision, signal light color variation and–46
Color vision tests, Farnsworth Lantern test fail rates–624
Combat, hearing threshold in combat personnel–53
Combat maneuvers, neck muscle activation and head postures in–1049
Commercial aircraft
alertness management program for–1256
crew familiarity, operational experience and errors in–41
emphysematous bulla hemorrhage on–1275
flight attendant musculoskeletal symptoms on long-haul flights–1283
in-flight medical incapacitation of airline pilots–1077, 1098
midair collisions 2000–2004–1252
pilot alcohol use violations and–1288
pilot perception of cockpit environment in–832, 877
Communication, civil aviation midair collisions and–1252
Community-acquired methicillin-resistant *S. aureus*, cutaneous–1271
Computed tomography (CT), for left bundle branch block diagnosis–613, 663
Concentric exercise, blood lactate response to–707
Conductive hearing loss, from perforated tympanic membrane–462
Constant-flow oxygen masks, oxygen delivery from–540
Continuing medical education questions–*see* CME & MOC Questions
Contrast agents, ultrasound, for bubble distribution simulation–846
Cooling systems
theoretical and thermal manikin testing of liquid systems–644
ventilated vests for helicopter pilots–545
Coping, positive psychological outcomes of spaceflight–93
Coronary artery disease
C-reactive protein and calcification scores for–377
essential thrombocytosis with–69
multislice CT diagnosis of–613, 663
sensitivity of non-invasive screening for–749
Corticosteroids, inhaled, for aviator asthma–838, 878
Cortisol response to flight training–410
Cosmonauts–*see* Spaceflight
Cost-effectiveness, of hyperbaric oxygen chamber treatment in space–434
Cranial-neck rewarming, for hypothermia–398
Crashes, aviation–*see* Aviation accidents
Crewmembers
crew familiarity, operational experience and errors–41
fatigue and human factors in a near crash–963
layover sleep predictions for transmeridian flight–145
Cutaneous community-acquired methicillin-resistant *S. aureus*, in aviators–1271

D

DCS–*see* Decompression sickness
Decision making
for baggage screening tasks–825
for ejection–62
for hyperbaric oxygen chamber treatment in space–434
Decompression sickness–*see also* Gas bubbles; Venous gas emboli
decompression schedules for–13
dehydration effects on–102
Doppler ultrasound detection of subclavian bubbles–957
effect of pre-dive exercise on–905
environmental temperature exposure and–795
error rates in diagnosis of–816
gas nuclei in bubble formation and–1068
hyperbaric oxygen chamber in space for–434
oxygen carriers and perfluorocarbon protection for–8
post-dive exercise reduces bubble formation–592
from repetitive breath-hold diving–971, 992
short oxygen table treatment for–1003
ultrasound contrast agents simulate bubble distribution for–846
Dehydration, decompression sickness risk and–102
Dental pain, from apical periodontitis–864, 878
Dental restoration breakage, in high altitude exposure–654, 664
Dermatologic disease
case report and literature review of psoriasis–140
cutaneous community-acquired methicillin-resistant *S. aureus*–1271
Descent, pressure-equalizing ear plugs for–766
Desert environment, kidney stones and–649
Diabetes mellitus
description and aeromedical disposition of pre-diabetes–658
type 1, awareness of hypoglycemic episodes in–456
Diagnosis, error rates in altitude DCS diagnosis–816
Dietary supplements, for muscle protein synthesis–982
Disaster relief operations, cognition during–929
Disc herniation, diagnosis and treatment of–1196
Disinfection, of aircraft–733, 767
Disorientation, spatial–*see* Spatial disorientation
Disuse atrophy
accelerometry as a measure of–953
muscle strengthening exercises for–581
Diving–*see also* Decompression sickness; Saturation dives
breath-hold, glutathione peroxidase indicators of hypoxia in–551
breath-hold, muscle oxygen saturation in–1224
breath-hold, neurologic disorders from–971, 992
closed-circuit, carbon dioxide detection in–1028
closed-circuit, CNS oxygen toxicity from–526, 1153
dehydration, decompression sickness risk and–102
effect of pre-dive exercise on bubble formation–905
environmental temperature exposure and DCS risk–795
gas nuclei in bubble formation and–1068
glutathione decreases after–597
post-dive exercise reduces bubble formation–592
Diving reflex, muscle oxygen saturation and–1224
Dogs, aeromedical evacuation of Military Working Dogs–763
Doppler ultrasound
for subclavian vein bubbles–957
ultrasound contrast agents simulate bubble distribution–846
Drowning, breath-hold performance in cold water immersion and–1136
Drowsiness–*see* Sleepiness
Drugs–*see* Medications
Dynamic exercise, thermoregulation after–1174
Dynamic strength, cervical resistance exercise for–1131

E

Ear plugs
with earmuffs for sound attenuation–899, 991

pressure-equalizing–766
Earlobe arterialized blood, for arterial blood gas tensions–453
Earmuffs, with ear plugs for sound attenuation–899, 991
Eccentric exercise, blood lactate response to–707
Editorials
CME/MOC feature–662
medical qualification for space tourists–485
year in review, new initiatives–1
Ejection, decision making for–62
Ejection seats, rocket-assisted
head rotation during–1041
injuries from–936, 992
Electrocardiography, for coronary artery disease–749
Embolism–*see* Venous gas embolism
Emergency medical services, physician roles in aeromedical evacuation–631, 664
Emphysema, in space tourists–475
Emphysematous bulla hemorrhage, during commercial air travel–1275
Environmental factors
decompression sickness risk and–795
in motion sickness in women–1148
Epidemiology, cancer incidence in the U.S. Air Force–789, 877
Epilepsy
from head injuries–1080, 1098
from head injuries (commentary)–1083
Erratum–82
Errors
in aviation accidents–1056
crew familiarity, operational experience and–41
in diagnosis of altitude DCS–816
in ultralight aircraft accidents–950
Esophageal dilation, causes of–873
Essential thrombocytosis, with myocardial infarction–69
Evacuation, air–*see* Aeromedical evacuation
Examination, medical
for space tourists–475
for space tourists (editorial)–485
Excessive daytime sleepiness, evaluation of–753, 769
Exercise–*see also* Resistance exercise
blood lactate response to–707
dynamic, thermoregulation after–1174
foot local sweat secretion differences during–1020
for G force tolerance enhancement–573
gravity replacement in microgravity–1117
heat stress risk factors during basic training and–415
hybrid program for spaceflight disuse atrophy–581
maximal oxygen uptake in hot environments and–687
for neck injury prevention–20
post-dive bubble formation and–905
post-dive exercise reduces bubble formation–592
skeletal muscle changes without–981
thermoregulation and caffeine use in hot environments–124
Exertional heat stress, during basic military training–415
Extreme environments, earlobe arterialized blood sampling in–453
Eye disorders, Posner-Schlossman syndrome and–1092

F

Farnsworth Lantern, fail rates of–624
Fatigue
in 2 and 3 pilot crews on trans-Atlantic flights–605
alertness management program for–1256
in military aviation shift workers–1166
near crash of a military aircraft and–963
neck muscle activation and head postures in–1049
Females–*see* Women
Fiber, dietary, gastric emptying at cabin altitude and–121
Fighter pilots
attitude directional indicators vs. head-up displays for spatial disorientation in–444
hearing threshold in–57
neck and lumbar spine pain in–1158
neck injury prevention for–20
spatial disorientation-related accidents and–720
vocal cord paralysis in–65
Fine motor skills, in microgravity–852
Fitness to fly–*see* Aeromedical certification
Flight attendants
musculoskeletal symptoms in–1283
reproductive health of–533
Flight crew–*see* Crewmembers
Flight displays, attitude directional indicators vs. head-up displays for spatial disorientation–444
Flight performance–*see* Performance
Flight training, aviator hormonal response to–410
Fluid-electrolyte balance, thermoregulation during exercise in hot environments and–124
Food deprivation, during sustained operations–929
Foot, local sweat secretion differences–1020
Force production, adaptive reprogramming for isometric force deficit in +3 Gz–586
Fore-and-aft oscillation, motion sickness from–1236

G

G-excess illusion, semicircular canal and–500
G force–*see also* Acceleration
calf venous filling and elastance in–1009
carotid sinus pressure during–921, 991
dose-dependent effects on rat body mass–842
isometric force deficits in–586
neck injury prevention for–20
physical conditioning enhances G tolerance–573
G-induced loss of consciousness (G-LOC), prevalence in Royal Air Force–619
Galactic cosmic radiation, acute radiation exposure during–130
Gas bubbles
Doppler ultrasound detection of–957
effect of pre-dive exercise on–905
gas nuclei and–1068
post-dive exercise reduces bubble formation–592
ultrasound contrast agents simulate bubble distribution–846
Gas embolism–*see* Venous gas embolism
Gas nuclei, bubble formation and–1068
Gastric emptying, dietary fiber at cabin altitude and–121
General aviation accidents, in degraded visibility–1062, 1097
Genetics, motion sickness in women and–1148
Germany, centrifuge therapy for psychiatric patients in–157
Glucose, description and aeromedical disposition of pre-diabetes–658
Glutathione decrease after saturation dives–597
Glutathione peroxidase, hypoxia symptoms in breath-hold diving and–551
Gravity replacement, for microgravity exercise–1117
Guidelines, for influenza pandemic and air transport–974

H

Hang-gliders, history of–1087
Head injuries
PET scan for epileptogenic potential of–1080, 1098
PET scan for epileptogenic potential of (commentary)–1083
from rocket-assisted ejection seats–936, 992
Head nodding motion sickness, torso rotation predicts susceptibility to–909
Head posture, in aerial combat maneuvers–1049
Head rotation, during rocket-assisted ejection vertical impact–1041
Head-supported mass, neck injury risk and–509

Head tracking performance, with helmet-mounted systems and vibration–388
Head-up display, for spatial disorientation–444
Head-up tilt
bispectral analysis of cardiorespiratory physiology during–151
cardiovascular adaptation to–494
squat-stand test response after–1125
Hearing loss
combination earmuffs and earplugs for–899, 991
from perforated tympanic membrane–462
Hearing threshold
in military pilots–57
in U.S. marines–53
Heart period variability, in trauma patients–1107
Heart rate
during exercise in hot environments–687
during heat exposure–915
Heat stress
during basic military training–415
heart rate variability during–915
liquid cooling systems for–644
maximal oxygen uptake during–687
ventilated vests for helicopter pilots and–545
Helicopters
cold water immersion and–1136
microphones for speech intelligibility in–26
pilot hearing threshold in–57
prevalence of pilot neck injuries in–713
spatial disorientation-related accidents and–720
ventilated vests for heat stress prevention in–545
Helium rebreather, decompression schedules and–13
Helmet-mounted systems
neck injury risk and–509
vibration and tracking performance with–388
Hematoma, subdural, aeromedical certification and–870
Hemochromatosis, diagnosis and treatment of–77
Hemodynamics
after dynamic exercise–1174
of midodrine after spaceflight–429
in thermoneutral water immersion–1183
Hemorrhage, emphysematous bulla–1275
Hepatitis, in a Military Working Dog–763
Herniated lumbar disc, diagnosis and treatment of–1196
High altitude–*see* Altitude
History of aerospace medicine
Aerospace Medicine Association annual awards–977
Albrecht Ludwig Berblinger–1087
centrifuge therapy for psychiatric patients–157
Ernst Horn–157
Luftwaffe aeromedical evacuation–73
Robert Hooke–867
Hooke, Robert–867
Hormones, hormonal response to flight training–410
Horn, Ernst–157
Hot environments–*see also* Heat stress
heart rate variability in–915
kidney stones and–649
maximal oxygen uptake during exercise in–687
thermoregulation, caffeine use and exercise in–124
Human error–*see* Errors
Human factors
in aviation accidents–1056
in the near crash of a military aircraft–963
pilot age and aviation accidents–737, 768
remotely piloted aircraft and–724, 1278
in ultralight aircraft accidents–950
Human Factors Analysis and Classification System–1056
Hydration
after dynamic exercise–1174
decompression sickness risk and–102
kidney stones and–649
Hyperbaric oxygen therapy
for CNS oxygen toxicity–526
for decompression sickness in space–434
Hypercortisolemia, dietary supplements for–982
Hyperglycemia, description and aeromedical disposition of pre-diabetes–658
Hypergravity–*see* G force
Hyperoxia
glutathione decreases after saturated dives and–597
respiratory control effects of–801
Hypersomnia, idiopathic–753, 769
Hypertension, pre-hypertension prediction in aviators–1162
Hyperthermia, foot local sweat secretion differences during–1020
Hypertrophic cardiomyopathy, in military pilots–459
Hypobaric chamber, invention of–867
Hypoglycemia, awareness of hypoglycemic episodes in type 1 diabetes–456
Hypotension, after dynamic exercise–1174
Hypothermia, cranial-neck and inhalation rewarming for–398
Hypoxia
acclimation without cold exposure–1230
cardiovascular response to stepwise oxygen decreases–1015
cerebral blood flow velocity and psychomotor performance in–107
glutathione peroxidase indicators of–551
normobaric hypoxia inhalation test for–1143
reduced oxygen breathing device (ROBD) training for–857

I

Immersion–*see* Cold water immersion; Water immersion
Impedance threshold device, for post-spaceflight orthostatic hypotension–486
Index cases, bacterial meningitis exposure during an intercontinental flight–758, 769
Indoor air pollution, in commercial aircraft cockpits–832, 877
Inertial resistance, blood lactate response to–707
Infectious diseases
bacterial meningitis exposure during an intercontinental flight–758, 769
cutaneous community-acquired methicillin-resistant *S. aureus*–1271
Infertility, in female flight attendants–533
Influenza pandemic, air transport guidelines for–974
Inhalation rewarming, for hypothermia–398
Injuries
from balloon accidents–556
from balloon accidents (letter & reply)–989
Insecticides, for aircraft disinsection–733, 767
Insomnia, excessive daytime sleepiness and–753, 769
Instrument rating, general aviation accidents and–1062, 1097
Inter-rater agreement, for decompression sickness diagnosis models–816
Intercontinental flights
bacterial meningitis exposure during–758, 769
fatigue/sleepiness in 2 and 3 pilot crews–605
International space station–*see* Spaceflight
Intraocular pressure, at high altitudes with and without oxygen–704
Isometric exercise, hybrid program for spaceflight disuse atrophy–581
Isometric strength
adaptive reprogramming for isometric force deficit in +3 Gz–586
cervical resistance exercise for–1131

J

Job satisfaction, in air traffic controllers–422

K

Kidney stones, desert environment deployment and–649
Knee extensor mass, after bed rest–981

L

Lactate, concentric/eccentric exercise and–707
Laparoscopic surgery, in microgravity–852
Lattice degeneration, diagnosis and treatment of–559
Layover sleep predictions, for transmeridian flight–145
Left bundle branch block, multislice CT diagnosis of–613, 663
Leg veins, venous filling and elastance in orthostatic stress–1009
Letters to the Editor–464, 766, 989
Light flashes, in low Earth orbit–449
Light guns, photometric and color variation in–46
Linear acceleration, cardio-respiratory response to–114
Liquid cooling systems, theoretical and thermal manikin testing of–644
Liver function tests, hemochromatosis diagnosis and–77
Long-haul flights, flight attendant musculoskeletal symptoms on–1283
Loss of consciousness–*see also* G-induced loss of consciousness
  in closed-circuit diving–1028
Low Earth orbit, phosphenes in–449
Low frequency noise, combination earmuffs and earplugs for–899, 991
Lower limb suspension, accelerometry as a measure of–953
Luftwaffe, aeromedical evacuation in–73
Luggage screening tasks, age and automation effect performance of–825
Lumbar disc herniation, diagnosis and treatment of–1196
Lumbar spine injuries, aircraft type and–1158
Lunar exploration, biomedical research and–1084

M

Maintenance of certification questions–*see* CME & MOC Questions
Maximal oxygen uptake, during heat stress–687
Measles, diagnosis of–1294
Medical certification–*see* Aeromedical certification
Medical events, in-flight–1077, 1098
Medical history, aviation accidents and–1171
Medical qualification
  for space tourism–475
  for space tourism (editorial)–485
Medications
  autopsy findings of–1171
  for motion sickness–1213, 1297
Melanoma, in microgravity–1113
Membership survey–1091
Memory, during sustained operations–929
Meningitis, bacterial, exposure during an intercontinental flight–753, 769
Menstrual cycle, in female flight attendants–533
Mental health, positive psychological outcomes of spaceflight–93
Mental performance–*see* Cognitive effect; Performance
Microgravity
  3D spatial skill training for–404
  biomedical research and–1084
  gravity replacement for exercise in–1117
  medical qualification for space tourists in–475
  medical qualification for space tourists in (editorial)–485
  melanoma growth and tumorigenicity in–1113
  midodrine for post-flight orthostatic intolerance–429
  tying surgical knots in–852
Microphones, speech intelligibility in noisy environments and–26
Midair collisions, in civil aviation 2000–2004–1252
Midodrine, hemodynamics after spaceflight–429
Military operations–*see* Operational environments
Military personnel
  cancer incidence in the U.S. Air Force–789, 877
  fatigue and human factors in a near crash–963
  fatigue in shift workers–1166
  G-LOC prevalence in–619
  hearing threshold in–53, 57
Military pilots–*see also* Fighter pilots
  acute hypertrophic cardiomyopathy and arrhythmia in–459
  asthma in–838, 878
  pre-hypertension predicts hypertension in–1162
Military training, basic, heat stress risk factors during–415
Military Working Dogs, aeromedical evacuation of–763
Modafinil, for performance improvement during military operations–515
Moon exploration, biomedical research and–1084
Mortality
  from balloon accidents–556
  from balloon accidents (letter & reply)–989
  heart period variability for prediction of–1107
Motion sickness
  advances in pathogenesis, prediction, prevention and treatment–1213, 1297
  from fore-and-aft oscillation–1236
  genetic influences in women–1148
  optokinetic drum rotation velocity change and–811
  rotation direction change and (letter & reply)–464
  stroboscopic vision for–2
  torso rotation predicts susceptibility to head nodding motion sickness–909
Motor performance–*see* Performance
Multislice CT diagnosis, of left bundle branch block–613, 663
Muscle catabolism, dietary supplements for–982
Muscle mass, after bed rest–981
Muscle oxygen saturation, in breath-hold diving–1224
Muscle protein synthesis, dietary supplements for–982
Muscle strengthening exercises, hybrid program for spaceflight disuse atrophy–581
Musculoskeletal symptoms, in flight attendants on long-haul flights–1283
Myasthenia gravis, diagnosis and treatment of–78
Myocardial infarction
  autopsy diagnosis of–944
  essential thrombocytosis with–69

N

Near crash, fatigue and human factors in–963
Neck compression, carotid sinus pressure during–921, 991
Neck injuries
  aircraft type and–1158
  diagnosis and treatment of–161
  head-supported mass and risk for–509
  prevelance in helicopter pilots–713
  from rocket-assisted ejection seats–1041
Neck injury prevention
  cervical resistance exercise for–1131
  trampoline exercise vs. strength training for–20
Neck muscles, in aerial combat maneuvers–1049
Neurobehavioral performance–*see* Performance
Neurological effects
  of breath-hold diving–971, 992
  of prolonged hyperoxia–801
Night flying, spatial disorientation-related accidents and–720
Nitrogen load, environmental temperature exposure and–795
Noise
  combination earmuffs and earplugs for–899, 991
  microphones for speech intelligibility during–26
Noradrenaline, response to flight training–410
Normobaric hypoxia inhalation test, for air travel risk–1143
Nuclear, biological and chemical protective clothing–*see* Protective clothing

O

Occupational group, fatigue in shift workers and–1166

Occupational injuries, flight attendant musculoskeletal symptoms on long-haul flights–1283
Occupational stress, in air traffic controllers–422
Ocular tonometry, for intraocular pressure at high altitudes–704
Operational environments
  alertness management program for–1256
  caffeinated tube food for–1034
  cognition during sustained operations–929
  crew familiarity and error occurrence in–41
  zolpidem with caffeine or modafinil for–515
Optec 900 lantern, fail rates of–624
Optokinetic rotation
  rotation direction change and (letter & reply)–464
  rotation velocity changes and–811
Organizational structure, in aviation accidents–1056
Orthostasis, squat-stand test response after head-up tilt–1125
Orthostatic hypotension, impedance threshold device for–486
Orthostatic stress
  calf venous filling and elastance in–1009
  cardiovascular response to repeated head-up tilt–494
  midodrine for–429
Oscillation, visual scene effect in–1236
Otolithic organs
  G-excess illusion and–500
  in motion sickness–1213, 1297
  roll-tilt perception during centrifugation and–695
  torso rotation predicts susceptibility to head nodding motion sickness–909
Oxidative stress, glutathione decreases after saturated dives and–597
Oxygen carriers, for decompression sickness protection–8
Oxygen deficiency, cardiovascular response to stepwise normobaric hypoxia, 15% to 21%–1015
Oxygen delivery, from constant-flow oxygen masks–540
Oxygen mask design, oxygen delivery comparison for–540
Oxygen saturation
  in breath-hold diving–1224
  constant-flow oxygen masks and–540
  normobaric hypoxia inhalation test for–1143
Oxygen toxicity
  from closed-circuit diving–526, 1028, 1153
  from prolonged hyperoxia–801

P

Pandemic influenza, air transport guidelines for–974
Parachuting injuries, from rocket-assisted ejection seats–936, 992
Passenger tracking, bacterial meningitis exposure during an intercontinental flight–758, 769
Patent foramen ovale, in repetitive breath-hold diving–971, 992
Perfluorocarbon, for decompression sickness protection–8
Perforated tympanic membrane, hearing loss from–462
Performance
  in acute hypoxia–107
  alertness management program and–1256
  caffeinated tube food and–1034
  during sustained operations–929
Periodontitis, apical, barodontalgia from–864, 878
Personality traits, aeronautical adaptability and–1188
PET–*see* Positron emission tomography
Phase shift, daily 30-minute advances for 6-hour phase advance and–677
Phosphenes, in low Earth orbit–449
Physical activity–*see* Exercise
Physical fitness, for G force tolerance enhancement–573
Physicians, role in aeromedical evacuation–631, 664
Pilot–*see* Aviator
Plantar flexor mass, after bed rest–981
Plasma proteins, after spaceflight–745
Polycythemia, diagnosis and treatment of–761
Positron emission tomography (PET)
  for head injury epileptogenic potential–1080, 1098
  for head injury epileptogenic potential (commentary)–1083
Posner-Schlossman syndrome, diagnosis and treatment of–1092
Pre-diabetes, description and aeromedical disposition of–658
Pre-hypertension, prediction of aviator hypertension–1162
Pregnancy, in female flight attendants–533
Pressure-equalizing ear plugs, for barotrauma prevention–766
Presyncope, bispectral analysis of–151
Propeller aircraft, seat vibration in–32
Prostate cancer, diagnosis and treatment of–984
Prostheses, history of–1087
Protective clothing, theoretical and thermal manikin testing of liquid cooling systems–644
Protein synthesis, after spaceflight–745
Provigil–*see* Modafinil
Psoriasis, case report and literature review of–140
Psychiatric patients, centrifuge therapy for–157
Psychological factors, in breath-hold performance in cold water immersion–1136
Psychological outcomes, of spaceflight–93
Psychomotor performance–*see* Performance
Pupil asymmetry, diagnosis and treatment of–987
Push-pull maneuvers, carotid sinus pressure during–921, 991
Pyrethrins, for aircraft disinfection–733, 767
Pyrethroids, for aircraft disinfection–733, 767

R

Radiation exposure
  phosphenes from–449
  during spaceflight–130
Radio communications, civil aviation midair collisions and–1252
Rash, diagnosis of–1294
Readership survey results–561
Receiver Operating Characteristic (ROC) analysis, for ejection decisions–62
Recreational aviation, ultralight aircraft accidents–950
Recurrent laryngeal nerve paralysis, in a fighter pilot–65
Reduced oxygen breathing device (ROBD), for hypoxia training–857
Remotely piloted aircraft
  human factors in–724
  human systems integration with–1278
Renal stones–*see* Kidney stones
Reproductive health, of female flight attendants–533
Research, lunar exploration and–1084
Resistance exercise
  for muscle mass during bed rest–981
  for neck injury prevention–1131
Respiratory control, hyperoxia-induced changes in–801
Respiratory response
  bispectral analysis of–151
  to transient linear acceleration–114
Restless leg syndrome, diagnosis and treatment of–1094
Retinal detachment, prevention of–559
Retinal holes, diagnosis and treatment of–559
Retinal slip, motion sickness from–2
Rewarming, cranial-neck and inhalation rewarming for hypothermia–398
Rhyme test, microphones for speech intelligibility and–26
Rocket-assisted ejection seats
  head rotation during vertical impact–1041
  injuries from–936, 992
Roll-tilt perception, during gondola centrifugation–695
Rotation
  change hastens motion sickness (letter & reply)–464
  rotation velocity changes and motion sickness–811
RR interval, in stepwise normobaric hypoxia, 15% to 21%–1015

S

Safety, pilot age and aviation accidents–737, 768
Saturation dives
  decompression sickness protection for–8
  dehydration, decompression sickness risk and–102
  glutathione decreases after–597
Schedules–*see* Sleep/wake schedule; Work schedules
Sciatica, diagnosis and treatment of–1196
Scuba diving–*see* Diving
Seasickness–*see* Motion sickness
Seat vibration, in propeller aircraft–32
Semicircular canal, G-excess illusion and–500
Sensorimotor coordination, isometric force deficits in +3 Gz and–586
Sensory conflict
  in motion sickness–1213, 1297
  rotation velocity changes and motion sickness–811
Septic cavernous sinus thrombosis, diagnosis and treatment of–660
Sequential quadratic programming method, for decompression schedules–13
Severity of injuries, heart period variability for prediction of–1107
Shiftwork
  caffeine or modafinil for–515
  fatigue in selected military occupational groups–1166
Short oxygen tables, for decompression sickness–1003
Shoulder integrity, in spaceflight–982
Shutter glasses, for motion sickness–2
Signal lights
  Farnsworth Lantern test fail rates and–624
  photometric and color variation in–46
Simulators, for reduced oxygen breathing device (ROBD) hypoxia training–857
Sleep deprivation
  alertness management program for–1256
  caffeinated tube food for–1034
  caffeine or modafinil for–515
  in military aviation shift workers–1166
  during sustained operations–929
Sleep, layover sleep predictions for transmeridian flight–145
Sleep/wake schedule, daily 30-minute phase advances for 6-hour advance of–677
Sleepiness
  in 2 and 3 pilot crews on trans-Atlantic flights–605
  excessive daytime sleepiness–753, 769
Smallpox vaccination, inappropriate site for–1193
Solar particle events, acute radiation exposure during–130
Somatogyral illusion, in spatial disorientation–1244
Sound attenuation, combination earmuffs and earplugs for–899, 991
Space Medicine Reviews–981
Space tourism
  medical qualification for–475
  medical qualification for (editorial)–485
Spaceflight–*see also* Microgravity
  3D spatial skill training for–404
  acute radiation exposure during–130
  coronary artery disease screening for–377
  daily 30-minute advances for 6-hour phase advance in–677
  dietary supplements for muscle catabolism in–982
  gravity replacement for exercise in–1117
  hyperbaric oxygen chamber therapy in–434
  lunar exploration and medical research (commentary)–1084
  midodrine for post-flight orthostatic intolerance–429
  motion sickness prediction for–909
  muscle strengthening exercises for disuse atrophy–581
  phosphenes in–449
  plasma protein synthesis after–745
  positive psychological outcomes of–93
  shoulder integrity in–982
  tying surgical knots in–852
Spatial disorientation
  3D spatial skill training for–404
  aircraft accidents related to–720
  attitude directional indicators vs. head-up displays for–444
  G-excess illusion and–500
  during gondola centrifugation–695
  somatogyral illusion in–1244
Speech intelligibility
  combination earmuffs and earplugs reduce–899, 991
  throat vs. acoustic microphones for–26
Spin rate and duration, somatogyral illusion and–1244
Squat-stand test, after head-up tilt–1125
Staphylococcus aureus, methicillin-resistant, community-acquired–1271
Stimulus predictability, cardio-respiratory response to acceleration and–114
Strength training, for neck injury prevention–20
Stress reaction, to flight training–410
Strobe lights, for motion sickness–2
Stroboscopic vision, for motion sickness–2
Stroke volume, impedance threshold device for–486
Student aviators–*see* Flight training
Subclavian vein bubbles, Doppler ultrasound detection of–957
Subdural hematoma, aeromedical certification and–870
Submarines, decompression sickness protection for–8
Sudden cardiac death, autopsy diagnosis of–944
Supersaturation, post-dive bubble formation and–905
Surgical knots, in microgravity–852
Sweat, foot local sweat secretion differences–1020
Sympathovagal balance, during heat exposure–915

T

Temperature, environmental, DCS risk and–795
Temperature regulation–*see* Thermoregulation
Testicular cancer, diagnosis and treatment of–1291
Thallium imaging, for coronary artery disease–749
Thermal manikin testing, of liquid cooling systems–644
Thermal stress–*see* Heat stress
Thermoregulation
  acclimation to hypoxia without cold exposure and–1230
  after dynamic exercise–1174
  caffeine use in hot environments and–124
  during exercise in hot environments–687
  foot local sweat secretion differences–1020
  ventilated vests for heat stress prevention in helicopters–545
Throat microphones, speech intelligibility in noisy environments and–26
Thrombocytosis, essential, with myocardial infarction–69
Thyroplasty, for vocal cord paralysis–65
Toothache, from apical periodontitis–864, 878
Torso rotation, predicts susceptibility to head nodding motion sickness–909
Tracking performance, with helmet-mounted systems and vibration–388
Training, flight–*see* Flight training
Trampoline exercise, for neck injury prevention–20
Trans-Atlantic flights–*see* Intercontinental flights
Transmeridian flight, layover sleep predictions for–145
Transport aircraft
  aviator neck and lumbar spine pain in–1158
  pilot hearing threshold in–57
Trauma patients, heart period variability in–1107
Treadmill running, gravity replacement for–1117
Triage, heart period variability for–1107
Tube food, caffeinated, effect on pilot performance–1034
Tumor growth, in microgravity–1113
Twin studies, of motion sickness in women–1148
Tympanic membrane, perforated, diagnosis and treatment of–462
Type 1 diabetes mellitus, awareness of hypoglycemic episodes in–456
Typhoon aircraft, G-LOC prevalence and–619

U

Ultralight aircraft, accident factors for–950
Ultrasound, Doppler–*see* Doppler ultrasound
Ultrasound, for shoulder integrity–982
Unloading, accelerometry as a measure of–953
Unmanned aerial vehicles, human systems integration with–1278

V

Vaccination, smallpox vaccination site–1193
Vasoconstriction, in breath-hold diving–1224
Venous compliance, in leg veins positioned above and below heart level–1009
Venous gas embolism
  Doppler ultrasound detection of–957
  post-dive exercise reduces bubble formation–592
  in repetitive breath-hold diving–971, 992
Ventricular tachycardia, with acute hypertrophic cardiomyopathy–459
Vertebral fractures, from rocket-assisted ejection seats–936, 992
Vertical impact, head rotation during–1041
Vestibular system
  cardio-respiratory response to acceleration and–114
  roll-tilt perception during centrifugation and–695
  rotation velocity changes and motion sickness–811
  torso rotation predicts susceptibility to head nodding motion sickness–909
Vests, ventilated, for heat stress prevention in helicopter pilots–545
Vibration
  helmet-mounted systems and tracking performance with–388
  in propeller aircraft–32
Vigilance
  alertness management program for–1256
  caffeinated tube food for–1034
Virtual environment, for spaceflight spatial disorientation–404
Visibility, general aviation accidents and–1062, 1097
Visual scene effect, in fore-and-aft oscillation–1236
Visually perceived eye level, G-excess illusion and–500
Vocal cord paralysis, in a fighter pilot–65

W

Water immersion–*see also* Cold water immersion
  in thermoneutral water–1183
Weather, general aviation accidents and–1062, 1097
Weightlessness–*see* Microgravity
Women
  flight attendant musculoskeletal symptoms on long-haul flights–1283
  motion sickness in–1148
  reproductive health of flight attendants–533
Work environment, pilot perception of commercial aircraft cockpits–832, 877
Work performance–*see* Performance
Work schedules–*see also* Shiftwork
  alertness management program and–1256
  crew familiarity, operational experience and–41

Y

You're the Flight Surgeon–77, 161, 462, 559, 660, 763, 873, 987, 1094, 1196, 1294

Z

Zolpidem
  prior to military operations–515

  Business meeting—893p
  Carter Award—893p
  Graybiel Award—893p
  Luehrs Award—893p
  Luncheon address—893p
  Mitchell Award—893p
Space Medicine Association
  Committee reports—997
  Donations—997
  Hubertus Strughold Award—892p
  Incoming President—998p
  In Memoriam—471p
  Luncheon—471,998p
  Name change—997
  New website—89
  Not-for-profit status application—471
  Officers—997p
  President's Award—892p
  Special award—998p
  Special recognition award—998p
  Treasurer's report—997
  Wyle honored—998p
  Young Investigator Award—173,471,892p
SpecPro, new corporate member—569
Stem cell trial, phase II—570
Taxotere®—172
Techno warrior archetype—996
United States Air Force
  Roudebush becomes USAF Surgeon General—1210
  Taylor retires as USAF Surgeon General—1210
United States Aircraft Insurance Group (USAIG)—1306
University of Texas Medical Branch (UTMB)
  Allies with Wyle—1306
  Insect flight muscles research—570
Unmanned aerial vehicles—1303
Walt Disney Company, Imagineering—897p
Wing
  Beyond the theme parks—90p
  By-law change—473
  Dress for Success, San Antonio—568
  Executive Board—1000p,1105
  Florida's unique animals—473
  Forty years of friendships—170
  Honorary Member—90p
  I wish I'd joined sooner—1305p
  Identity theft—1208
  In Memoriam—675
  Meet . . . (member profiles)—90p,568p,786p,1105p,1305p
  New President's Welcome—675
  New members—786p
  Officers & Committee Chairs—1105
  Parliamentarian—473
  President's Message—473,786,1000,1105,1208,1305
  Reflections on Orlando—896p
World Health Organization (WHO)—1306
Wyle Laboratories
  Allies with UTMB—1306
  Honored by SMA—998p
